

Commercial Value Added Reseller Application

Overview

Landgate invites applications from entities interested in becoming a Value Added Reseller (VAR) under our Commercial VAR Licence (VAR Licence).

The standard offerings for Commercial VAR's are Landgate's Topographic Maps. Information is available on the Maps and Imagery pages of Landgate's website.

Requests for alternate Location Information Products will be considered by Landgate if requested.

Application

Each application will be assessed against Landgate's Qualitative Criteria. Landgate reserves the right to request further information and review other relevant factors, including conducting its own enquiries such as credit checks. Landgate will treat applications as confidential. The submission of an application does not commit Landgate to considering or appointing the Applicant as a VAR.

Sub-VAR's

If an Applicant is proposing to engage any Sub-VARs, Landgate may request all relevant details of the Sub-VAR, including a condensed response to the Qualitative Criteria. For further details, the Applicant is encouraged to review clause 14 of the VAR Agreement.

Submission

It is the responsibility of the Applicant to read both the Commercial VAR Licence, to ensure they are capable of meeting obligations, and the product information, to ensure the Location Information Product selected is appropriate for their needs.
