Register for a Landgate Login

Registering for a Landgate Login provides you better access to some of [Landgate's Online Services](#). Some services such as e-forms requires a Landgate Login before you can use them. As part of the MyLandgate set up, a Landgate Login must be included on the form as part of the initial application process.
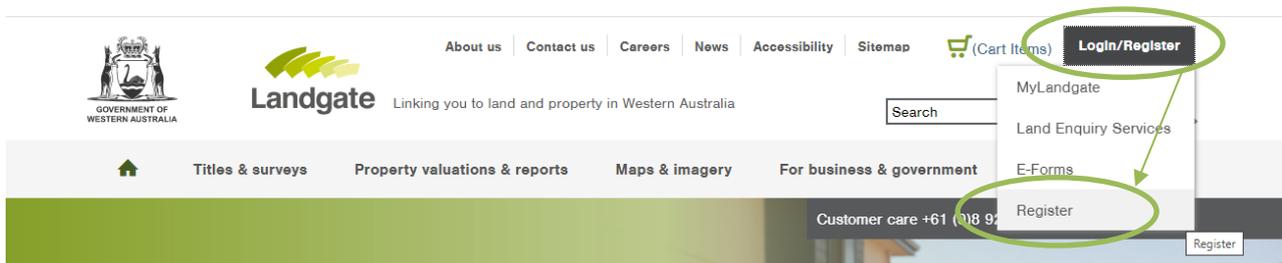

Registering is a 3 step process

Steps to register for a Landgate Login:

STEP 1		STEP 2		STEP 3		Account Customers Only
Submit the online registration form	→	Activate	→	Start using Landgate's online services	→	Join a billing account if required
10 mins*		15 mins*				

*Time estimates based on average customer experience and optimum system functionality.

Step 1

To register, visit the Landgate website www.landgate.wa.gov.au and click onto the Login/Register button at the top right of the screen, then select 'Register'.

This will launch the 'Register for a Landgate Login' page. The email address used in this registration will become your unique username locked specifically to the registered person, when logging into Landgate's online services like MyLandgate and Land Enquiry Services.

A personalised email address (e.g. firstname.surname@your-buiness.com) is less likely to be shared and already registered against someone else's name, rather than a group or generic or email address (e.g. sales@your-buiness.com).

In this example, the Landgate Login for Mary Smith will become marysmith2148@gmail.com

Complete the form and select the 'Register' button at the bottom right and confirm your details by selecting 'Confirm'.

Step 2

An email will be sent to your email address, requesting activation of the Landgate Login within 24hours. If it does not appear, be sure to check the junk and spam folders.

Once activated, your Landgate Login authorises you to access Landgate's electronic forms on the Landgate website and grants you the registered access when using Land Enquiry Services.

Step 3

Visit the Landgate website www.landgate.wa.gov.au to access Landgate's online services.

Account Customers Only

If you are part of an organisation that has a Landgate billing account, you can request to join a billing account after Step 2. You can still use the online services with registered access until your User Representative approves your submission. Learn more about how different access affects your use of Land Enquiry Services by visiting our website.
