

Log into MyLandgate

Quick Guide

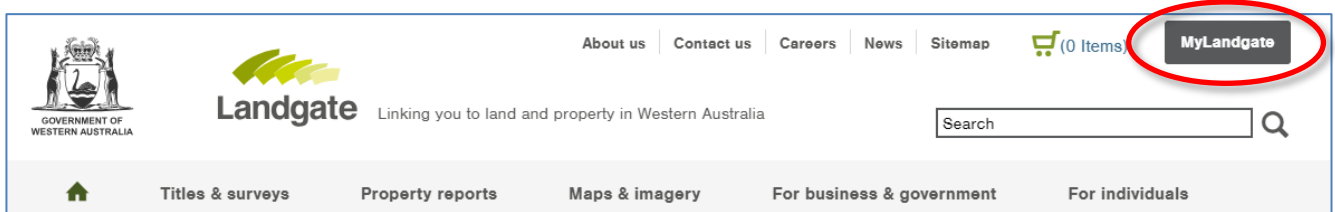

27/11/2018
Version: 1

Log into MyLandgate

When you have registered for a Landgate Login and joined a billing account, you will have access to MyLandgate. MyLandgate is a portal which allows access to specialised applications for industry professionals.

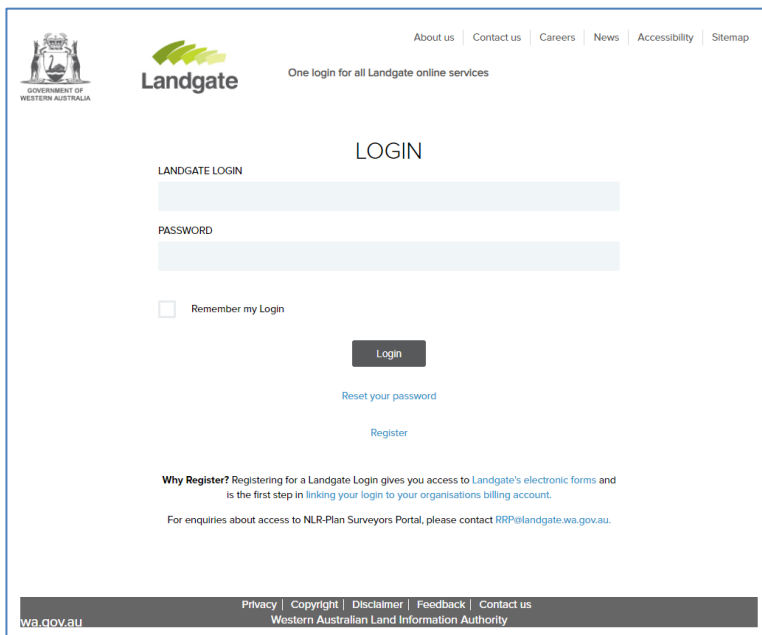

Step 1 – navigate to Landgate’s login page

To start the log in process, visit the Landgate website www.landgate.wa.gov.au and click onto the MyLandgate login button at the top right.

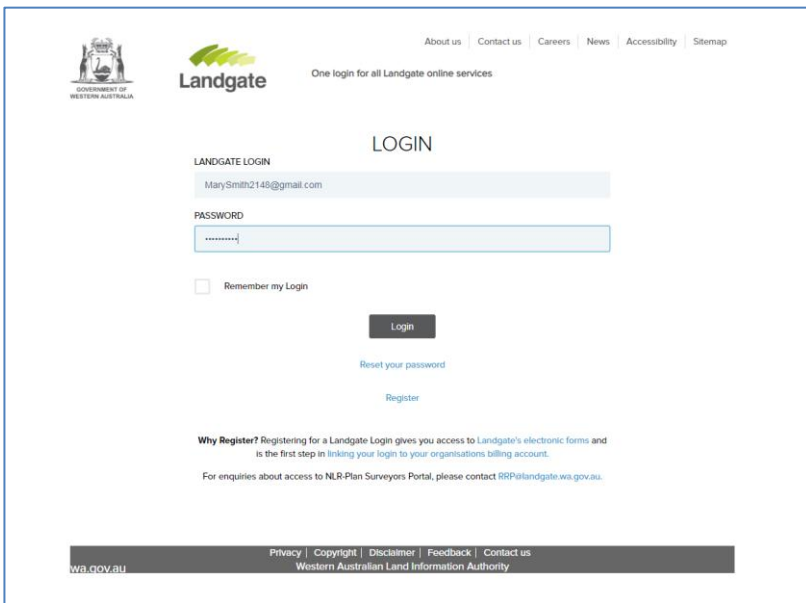

This will load the login screen. From here you can:

- log in with your Landgate Login that you have already set up
- reset your password

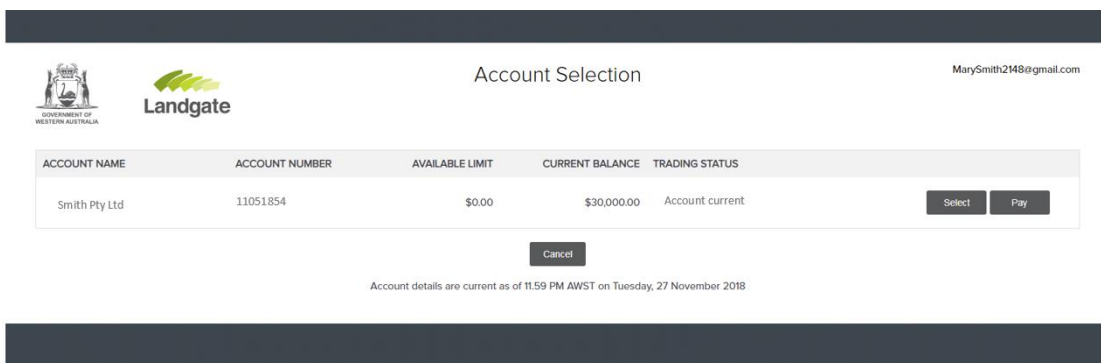

Step 2 – log in

The Landgate Login is the email address you have set up as your username, and the password is the one you set yourself during registration.

After clicking 'login', you will be shown the Account Selection screen which allows you to select from any of your linked accounts. By selecting the account, all fees incurred in MyLandgate transactions will appear on that account.

You can also pay your account monthly statements with a credit card from this screen by selecting 'Pay'.

After selecting the account, your screen will show your default MyLandgate channel.
